EXPERIENCE

Humana — Product Manager

June 2025 – Present

- Led the vision, roadmap and delivery of self-service Model Context Protocol (MCP) server functionality within the enterprise API catalog, covering 4,000+ internal APIs.
- Replaced manual MCP server provisioning with a self-service workflow, eliminating internal support requests for setup.
- Partnered with architecture, governance and security teams to build approval workflows for safe use of MCP servers and internal APIs.
- Led delivery across up to 3 concurrent engineering teams (~12–13 engineers), coordinating offshore and onshore developers, architects and scrum leadership.

Dark Matter Technologies (Black Knight Financial) — Software Engineer

Dec 2022 – Apr 2025

- Led software development projects from planning to execution, coordinating cross-functional teams to deliver AI-driven solutions.
- Designed and implemented RESTful APIs using Node.js for front-end and third-party integrations.
- Practiced Test-Driven Development to ensure code quality and efficient deployment.
- Managed sprint planning and backlog refinement; reported project status, risks and milestones to senior leadership.

Coding Dojo — Software Teaching Assistant

Aug 2022 – Dec 2022

- Guided students through coding best practices, debugging methodology and full-stack project development.
- Conducted code reviews with actionable feedback on structure, efficiency and maintainability.
- Led workshops on Agile principles and software lifecycle best practices.

SAM Artist Management — *Stage Manager, International Touring Productions*

Aug 2017 – Dec 2020

- Stage-managed international tours for Nine Inch Nails, Foo Fighters, and The Lonely Island, overseeing crews of 15+ across international locations.
- Built and maintained project schedules, logistics and risk management plans for live productions.
- Served as primary liaison between artists, technical teams and production management.
